

NEW APPOINTMENTS

Three important appointments were made this month. The first being Frank Lannetta who is an Italian living in Britain who has taken on the role Of NBU Liasion Officer for Italy.

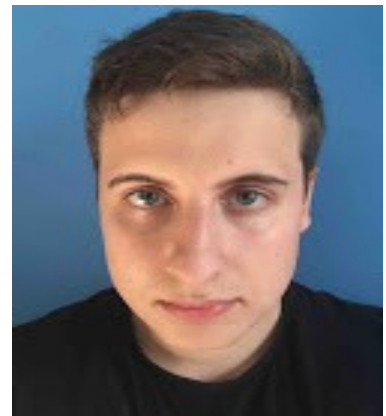

I've been fighting for a fake and slimy society for years, principles of nation and people must triumph as the safeguard of culture and of the individual that today is a taboo. I want to create a strong and close relationship internationally, not only in

terms of a commercial, political and military relationship with the UK but also with those people who are tired of this poison and oppression. this slimy and malignant society, where excuses and excuses are found to humiliate and describe others, cancel the individual here is the game of capitalism destroy culture, the individual, race-ethnicity (origins and identity), etc we are at war and as such we must respond by Legionaries and fight for our sovereignty and living space.

Known as well as in England healthy and ideal values are repeatedly raped and trampled, you are not alone in this war where it wants to be destroyed and divided. We will march together like our predecessors did. I am finding it difficult to raise the Axis and a new alliance in collaboration with healthy individuals and even those few

nations that defend themselves. there are so many obstacles but I do not want to give up or give myself to win' I would like to give back to Italian Fascism and every comrade who fought to defend Italy Fascist, the justice denied by an international court that unjustly condemned only people who once again tried not to survive life but to live it.

The next appointment is that of our former Youth Officer who has now taken on the role of NBU Liasion Officer for Greece. We would like to thank Vassalis for his work building the youth section which will now be run by

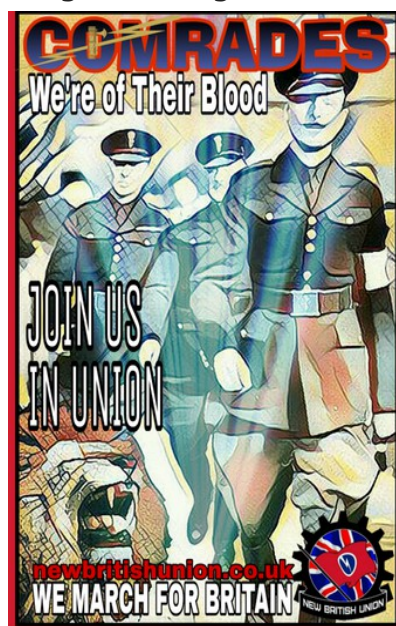

our third appointment
Joshua Turner.

It is a pleasure to stand as youth leader. I am a former Sergeant in the ACF, I am a true patriot to my country and see how the current government is strangling our nation, I see Fascism as the only way forward and if you would be able to lead this country to greatness through this great ideology I would gracefully follow you. I am a working class chap and still in education however I would like to dedicate my spare time to the cause, I have been a Moselyite for well over a year and want to give people a new idea of fascism, I am from North Nottinghamshire in a forming mining town that is rife with socialism. I am from a working class background and I see the only solution to the Socialist plague is Fascism.

PROPAGANDA POINTS

I won't go into depth about propaganda, but there are a couple of major points which are in our favour, as I see it. Propaganda must be rooted in truth, not the entirely specious, sentiment driven

propaganda of our opponents. Of course, our propaganda must be an appeal to sentiment also, but to a lesser extent so the truth of the message is blatantly apparent. Only propaganda that is rooted in lies and deception is required to be wholly excessive emotional and sentiment driven to mask it's baselessness and vapidty. It is becoming very real for many people, they see the reality of this 'progress', and many, more than we could think in our most optimistic moments, will likely know this 'progress' for what it is- a harmful and dangerous regression.

Whether deep down on a sub-conscious level to some degree, or consciously aware and have a real intellectual understanding of the

multitude of dimensions to the shape of our current state of affairs and how it came to be this way, all perceive the lie and are open to the truth. It is just delivering this in a format that is understood and irrefutable, this is not difficult as when your opponents can only attack you with the usual tirade of banalities and hysterical nonsense (I trust I need not elaborate, you all know them well) whilst not disproving or actually challenging a single point, you have truth on your side. We, Comrades, have the truth on our side. Those that do have the strength and dedication, the bravery, the confidence and the fanaticism and will to stand up may do so alone or as a small cell will, even on a local scale, look behind them and see that people are following them. The courage and morale of most are bolstered by the resolve and will of even just one individual. Maybe 1 in every 1,000 or even just 1 in every 10,000 or less than that has the true capability to lead the way, especially given the very unfavourable circumstances contemporary to our time.

NEW HOPE - NEW WAY – NEW BRITISH UNION

I don't know the statistic, or even if such a statistic exists, but I know that few are born leaders and most are born followers. It could be encapsulated into a simple phrase in that where one dares to take the lead, others will dare to follow.

SAD LOSS OF A COMRADE

It is with profound disappointment and regret that I inform you that the leader of the Northwest Front Harold Armstrong Covington, died in Bremerton Washington from a heart condition between Monday the 16th and Thursday the 19th of July at the age of 64.

Unbelievably, I was actually in Bremerton on the 17th, 18th and 19th of July in an attempt to meet him face to face. - Which is why these emails were suddenly suspended for about a week.

We were arranging a meeting on the evening of Monday the 16th Pacific Time by email after which he suddenly fell silent and I left the Puget Sound area on Friday the 20th. I

did however, manage to meet another Northwest migrant there who I assume may be well suited to replace Covington.

I first came to know of the Northwest Front through Covington's podcasts in 2011, have been a regular listener and occasional contributor on Radio Northwest ever since then and have been actively involved in attempting to grow and develop The Party's political and economic theory. It is therefore with supreme frustration and disbelief that I learned of Covington's unfortunately timed passing, perhaps only hours or even minutes away from actually meeting the man in person. - What would it have been like if I had actually met Harold, only to see the man pass away right there in front of me I wonder! Covington, a reincarnationist, was the primary recipient for this emailing list, as it was my intention to do my part in keeping the Northwest Front up to date with all relevant news in the mainstream, semi-mainstream and YouTube media for their weekly podcast. It was for his benefit and for the benefit

of the Northwest Front podcasts that this newsfeed continued for so long, and I therefore see no reason to continue it on this platform.

Nevertheless before the news of Covington's passing away reached me I established a Twitter feed as a replacement to save time and effort on my part, which you can find by linking here:

<https://twitter.com/LWN281>

I have no idea whether I intend to keep it updated or not as the news of Covington's passing is very depressing, and in a way defeats the purpose of my keeping this variety of concentrated news and entertainment well circulated.

**Fascism is a
movement of action
- a call to arms or a
different way you
can help!**

Fascism has always been associated with men of action, our symbol stands for Action in Unity, the best selling fascist newspaper in Britain was called Action. The British Union was led by a man of Action and now today we are calling for your Action men!

Yes NBU wants your original 1960's – 70's Palitoy Action man figures and equipment to help raise funds. We do everything differently to the old failing parties, raising funds is no exception.

We have set aside space in the office to clean, repair and repack vintage Action Man figures which we will then sell on the collectors market to help fund our operations.

Every original item will be welcome as each piece will go to building complete sets of uniform etc. We are building lists of all original releases between 1964 and 1974. This includes figures, uniforms, equipment,

transport and even empty boxes. Our hope is that if hundreds of members have or can find various pieces (tell friends and family we are raising an army, an army of action men!) we will be able to put a number of full complete sets together out of everything that comes in.

We already have some figures with missing limbs waiting to be patched up and returned to duty so please have a look in your attics and sheds or visit some boot sales see if you can pick something up for pennies which we can turn into pounds!

Action Man reports will be included in every months Blackshirt issue.

Repackaged complete sets will also be for sale in NBU Store. So what are you waiting for? Get your troops fell in and give them their marching orders to ;

HAVE YOUR SAY

Okay.

I've decided its time to leave the NF.

The other day I shared a post from another patriotic party, only to receive a message from the NF saying " by doing so, the other party may poach our members"...I thought we was all in the great struggle between us..this is whats wrong with the Nationalist community, too many egos.

In all honesty, I was never really comfortable with the NF, just the name spells trouble and violence, so I'll continue my patriotism working with other groups.

Mike

Time for PM to show some backbone.

Despite being nearly 80 at the time, I leafleted and voted for us to leave the European Union.

Along with many others, this was so we could become an independent country again. I wanted us to control our own borders.

It's about time Mrs May and her cronies realised this and stopped messing about! The English folk have spoken and we want to be listened to. We have offered the EU a lot [too much?]. They have offered us nothing.

We should just walk away. They are making such a fuss about Ireland which is none of their business.

If they want to sell us their cars, washing machines, wine and champagne, we will talk but if they act like they are doing now then we should not talk. Come on, Prime Minister May, show some backbone. England has stood up to Europe before so let's do it again.

Granville V Stone

Much has been said in an effort to persuade the people that British fascism will deny them the rights of free speech. When in fact it will bring to this country for the first time real opportunities for free speech.

A man talking in his sleep is not indulging in his democratic right of free speech. yet the system would have you believe that the greater absurdity of a number of people talking on subjects of which they know nothing is the essence of freedom.

They interpret freedom of speech as the freedom to talk, the freedom invariably used to delay action. So we see the governing body of the country devoting it's time to petty rights of obstruction, and any group, however insignificant their numbers, can in that place of government by use of obstructionist tactics delay, if they so desire, great policies of action.

Lots of rare and interesting books well worth a visit

Mosley's last letter, 26 November 1980

To the Editor of the New Statesman
Sir,

In your issue of 21 November there was a reference to my Olympia meeting. The simple facts have often been published without disproof. The largest audience ever seen at that time assembled to fill the Olympia hall and hear the speech. A small minority determined by continuous shouting to prevent my speech being heard. After due warning our stewards

removed with their bare hands men among whom were some armed with such weapons as razors and knives. The audience were then able to listen to a speech which lasted for nearly two hours.

Yours faithfully,
Oswald Mosley.

NBU OFFICE NEEDS YOUR HELP

As members will know NBU has been under constant attack since forming in 2012. Our enemies will not stop nor must we! They have got our paypal account closed, the new donorbox account shut down and banks refusing to do business with us. This has interfered with the running of NBU especially the office rental. Of course that is why they do it!

The office is a great success, it has allowed us to increase membership and propaganda, to hold all NBU property, flags posters banners computers printers literature etc in one safe place.

If we lose the office we lose the fight

All members will have received an email with a standing order form attached, if you havent please let us know. I would urge you to set up a monthly debit of ten pounds to help secure the rent for the office so we

can carry on the struggle.

I am sorry to have to be writing to you again so soon. Donorbox closed our account, not for anything we have done, not even for anything we have said but because of who we are! All other political groups are fine, they are happy to deal with them. We on the other hand they are happy to discriminate against, we are once again being treated like second class citizens, it is a disgrace.

Of course this is all part of the plan to stop fascism progressing, which we cannot and must not let happen. To help us out at this critical time I would urge you to fill out the attached standing order pro-forma to take to your bank. This will ensure we receive your generous monthly donations. Or you can donate by credit card by clicking on the

donate picture in NBU Store on our website.

This is a brand new account opened in my name (as NBU simply cannot open one) with Santander that will be used solely for the movement. The form is already filled in with these details.

The struggle continues I hope you will continue to support us going forward.

NEW HOPE - NEW WAY – NEW BRITISH UNION

The Fascist Decalogue

By James Ives
Director of Propaganda, A.F.P.

- 1) Unity – Here is the strength of the Fascist. Become one with your Comrades and nothing shall break you.
- 2) Spirit – It is in the heart that Fascism lives and is passed on. Put your faith not in the material, but in the eternal.
- 3) Courage – In struggle, never be a coward. It is better to fall in battle than to live in infamy.
- 4) Chivalry – It is the essence of our movement that Might is used only for Right. One must live this ideal daily.
- 5) Silence – Say only what needs to be said. The Fascist must act while others merely talk.
- 6) Charity – Work and live in the service of all citizens of the Nation. Remember that the individual is but one among many.
- 7) Work – Hard work is its own reward. The prize is gained in the building of a better America.
- 8) Education – You must improve yourself to become another. A Hero. Each of us must strive to represent the New America.
- 9) Sacrifice – Your own needs must come after the Cause and the Nation. This giving of yourself will result in a victory for all.
- 10) Honor – Follow only the path that honor illuminates. Living with a noble soul is to live the Fascist Ideal.

NEW HOPE - NEW WAY – NEW BRITISH UNION

RALLY TO OUR BANNER

Six years ago Gary Raikes re-lit the torch of fascism in Britain by founding New British Union. Many times during that period determined attempts have been made to extinguish that torch by enemies, very often disguised as friends. Sometimes they have almost succeeded. The light flickered and grew dim, but there was that vital spark which kept it alive through the stress of bad times until at last it is kindling into a flame that will sweep the whole country.

Thinking people of all classes, tired of the mess in which our professional politicians have landed us, are beginning to seek a real alternative. British Fascism is able, and willing, to supply it. British fascism is as distinct from Italian Fascism as German national Socialism is from both, the only thing common to all is the spirit of patriotism which animates any fascist movement.

British fascism can save Britain from the forces of disloyalty and disruption which are gathering for

the attack, while the political elite arrange trips to conferences all over the world at the expense of the tax-payers.

To our members and supporters we say the time is ripe to redouble our efforts to carry the light to those still in darkness. To the real patriot we say, "Rally to our banner and help us to repair the errors of our failed political parties." They have all betrayed us. Our programme is sane, and, above all else, practical. It aims at placing our country on a sound basis to get back to where she should be as the leader of the world in everything which makes for progress and prosperity.

Join our ranks now, and hasten the day when we can once more hold our heads high as proud citizens of the greatest country under the sun.

Sam Curtis
NBU secretary

The whole objective of New British Union movement is revolutionary. In other words to achieve success we must achieve a revolutionary change in the minds of the people

themselves. There is a great deal of superficial talk about a vague thing called "The revolutionary spirit". Some of it comes from those who contribute to its ends by talk alone. What they do not realise is that the achievement of revolution can only be successful when based upon the solid achievement of sheer hard work brought about by the revolutionary in their community.

The first qualification of the member who takes part in 'Operation Citadel' is the knowledge of discipline and the ability to submit to it. The voluntary discipline of the movement is a finer conception and one more difficult to achieve than any other. To become the steel to which the weak turn in times of difficulty means, perhaps, years of self training. It means the understanding of the ideas of British Fascism, and a passionate belief in the power of one man to lead our country.

I would urge our members, and those patriots yet to join, to set about this task with the same spirit that they take part in rallies, demonstrations and

NEW HOPE - NEW WAY – NEW BRITISH UNION

marches. They must create the necessary background and preparation for revolution. The revolution will be won in our communities, at grass root level in our Citadels!

On the work of members in this patient community propaganda is laid the underlying soundness of organisation, the necessary basis for all revolutionary action. In the great advance our feet must be firmly planted not on the shifting sands of flux and hysteria, but on the firm rock of British Fascist discipline. This discipline now rests in the new advance of our movement upon the individual and as such becomes an even finer thing.

Gary Raikes

Fascism combines the great principles of life and action in a new and dynamic creed of the modern age. Fascism stands for revolutionary change, and it employs the instruments by which the necessary changes can be effected with order and authority.

Leadership, loyalty, discipline, decision are the great instruments by which Fascism will carry through the changes that will end poverty and suffering and lift Great Britain to a pinnacle among the nations.

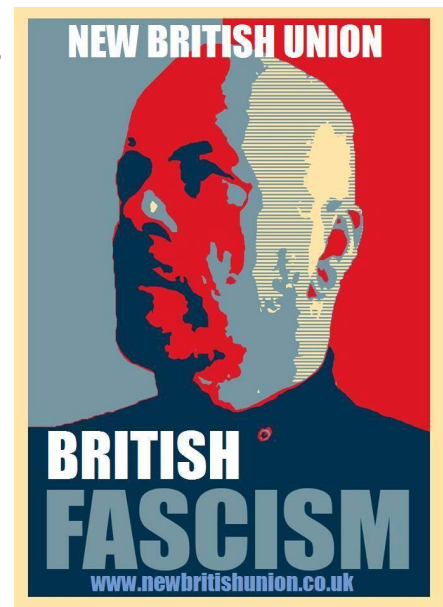

Fascism, like all the faiths of the past is common to all nations, but in Britain it will find its highest expression and development, because it is more naturally adapted to Britain than to any other country.

The essence of Fascism is teamwork, the power to pull together and sink individual interest in the common cause of the nation. These same qualities have been the essence of the British character in every great moment of its destiny.

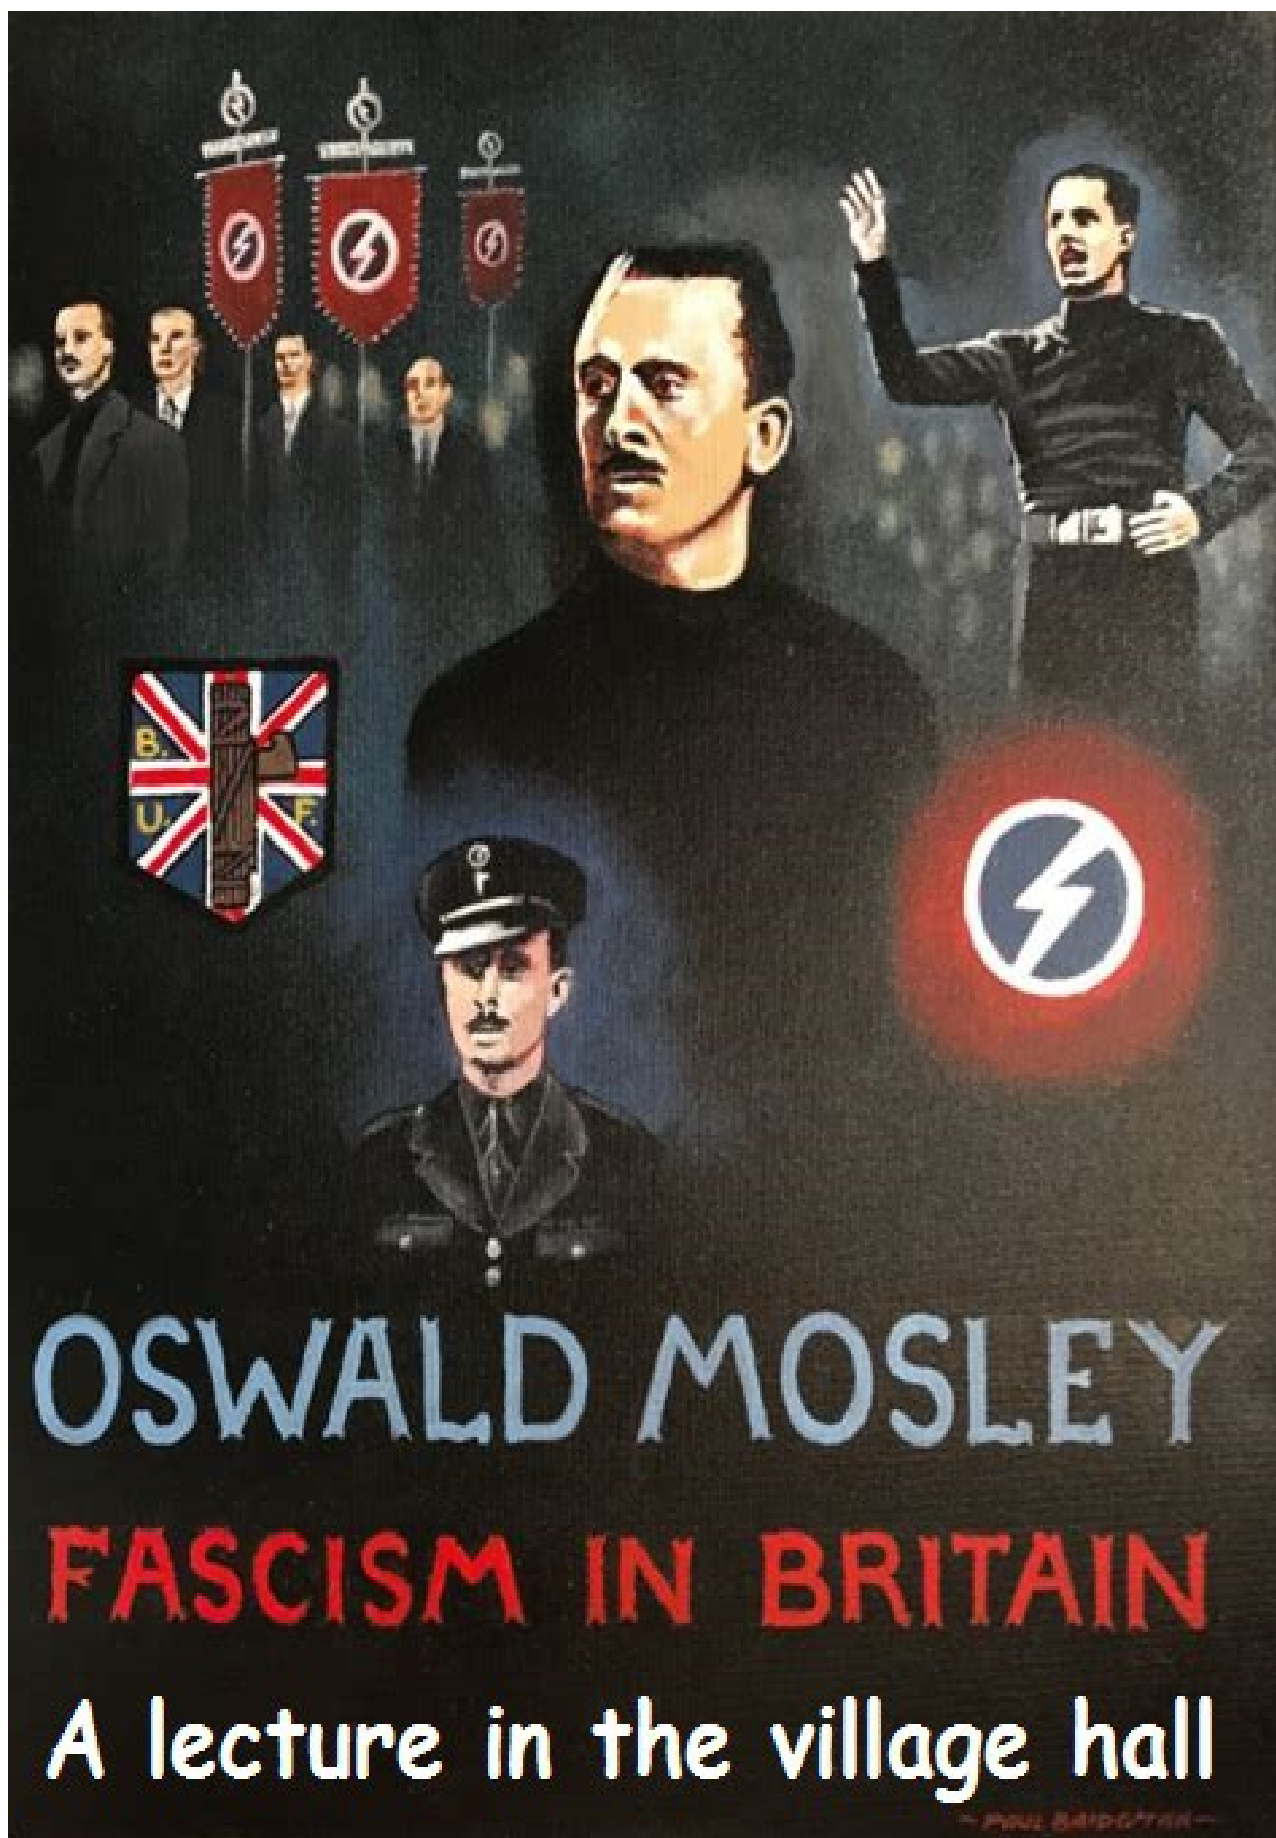

Fascism returns to Britain in an hour of decadence and of surrender, to evoke once more the great inspirations of the British spirit which have led through adversity to triumph in every great period of our history, and which will not fail us now.

New British Union leads the march back to a better Britain; New Fascism will lead us to a better world. I call on all our members, new and

old, to do whatever they can to promote the movement, to build upon this our sixth and most successful year and make 2018 the year of the Blackshirt.
